4210 EP FOOD LABEL

Ensures fresh and frozen product security and customer safety*

Q

How can I safely optimize my protection for fresh and frozen food items that are being increasingly targeted for theft?

A

The 4210 EP Food Label is the world's smallest food-safe RF label, providing optimal protection without endangering customers or product. It is easily integrated into price/scale labels for maximum protection, enabling food retailers to improve on-shelf availability.

- ✓ **SMALLEST FOOD-SAFE RF LABEL**
Designed for fresh or frozen food packaging
- ✓ **IMPROVED DETECTION**
Enhanced RF-EAS performance technology
- ✓ **OPTIMAL PROTECTION**
Safe for customer & product
- ✓ **INTEGRATES WITH ALL PACKAGING**
On plastic wrap, in price/scale labels, and under soaker pads
- ✓ **APPLIED IN-STORE OR @SOURCE**
Thin construction optimized for automatic application
- ✓ **CUSTOM PRINTING OPTIONS**
Available exclusively from Checkpoint Systems
