

NEW!

METO SHOPPING **BASKET**

More Convenience for your Customer

We have all done it: You're in a hurry and only want to make a small purchase, and pop into the supermarket without a shopping trolley. You start buying the products you need and in addition to that you see more and more stuff. But you just have 2 hands! For this situation most retailers offer shopping baskets in the entrance area today. If a retailer doesn't offer this service the result would be: the consumer makes no additional impulse purchases!

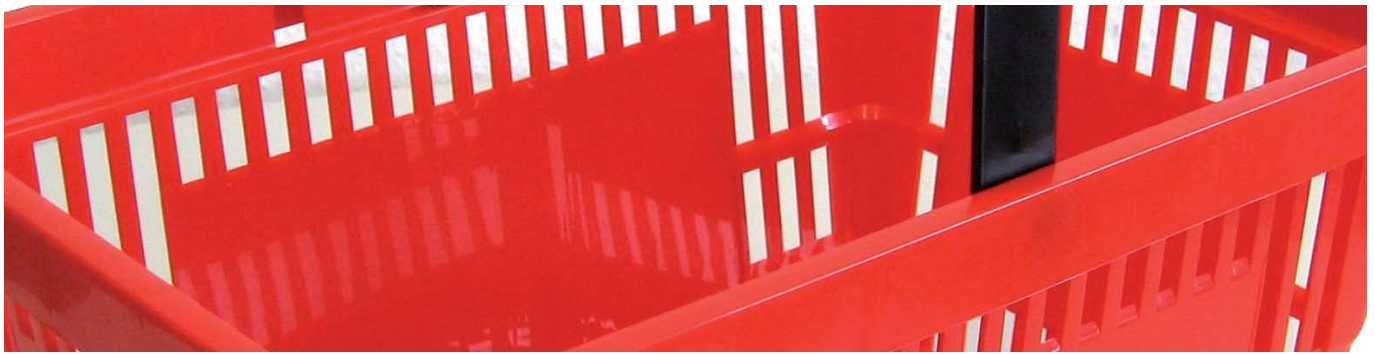

With the new METO Shopping Basket we offer an alternative to our rolling shopping basket "Bobby".

The METO shopping basket range enables you to offer your customers the right shopping convenience for quick purchases!
