

TURN-O-MATIC

*Are your customers
always this happy?*

TURN-O-MATIC

Have you ever wondered why customers return to the same places, even though they may offer the same products at a higher price?

The answer is Customer Service!

Using TURN-O-MATIC means that customers will be served in the right order but can walk around while they are waiting.

When customers are taking a number from a queuing system they feel more fairly treated and they get the feeling that service is more efficient. Giving them the freedom to move makes them feel less stressed and at the same time they tend to buy more.

1

Arriving customers take a ticket from the dispenser.

2

The ticket number reserves their turn for service.

3

Service staff call each customer in turn by stepping the 'NOW SERVING' indicator.

4

Waiting customers are free to move around, browse, shop...

5

...until their serving turn number is displayed.

Customers remember good service

TURN-O-MATIC

A TURN-O-MATIC system consists of a number of components that you can combine to suit your needs:

- Number Indicator
- Ticket Dispenser
- Push Buttons to change the displayed number
- Keypad
- Floor stand or counter stand for Dispenser
- Signal lamp
- Software to monitor activities
